Plastic – antibacterial white

Plastic - transparent

Endless possibilities
Perfect overview

**Regardless of the manufacturer.
Regardless of the size.**

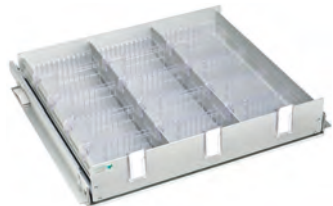

H+H SYSTEM produces the perfect fit.

The intelligent organisation system.
With up to 30% space savings.

Storage of samples

Storage of medication

Storage of blood and plasma

Drawers made to measure.

Drawers with the flexible divider system from H+H SYSTEM fit in all refrigerator brands, models and sizes. Our team works with you to develop an individually tailored, custom-built solution.

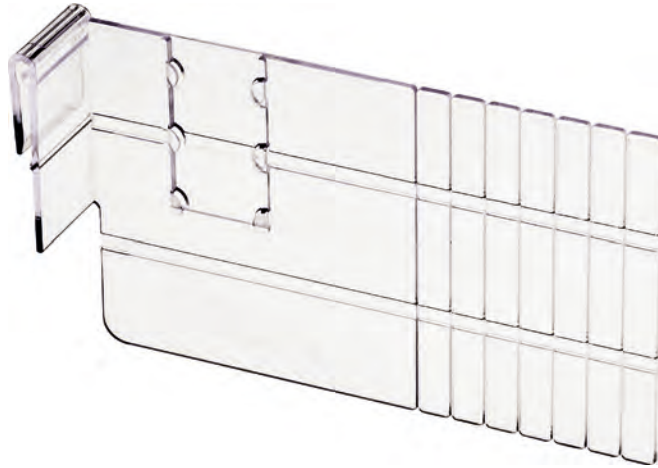

Ingeniously flexible

Why is the Sliding Divider the optimal solution for you? Because it adapts flexibly to every product and saves up to 30% space.

The Flexible Sliding Divider

Saves time, space and money

Up to 30% space savings
by simply adapting
to the products.

Any divider configuration possible:
Configure your individual organisation
quickly and easily with longitudinal rails
and sliding dividers. Benefit from optimal
functionality and precise use of space when
storing your items.

An innovation with convincing advantages

For the appropriate length, simply
shorten the divider at the pre-
determined breaking points

Flexible ends make it easier to remove
the products

Quick overview thanks to integrated
card holders for labelling

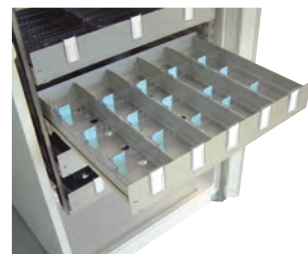

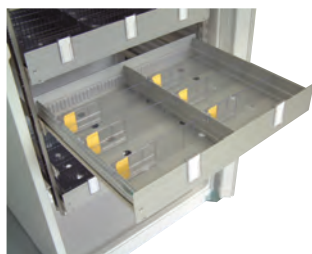

1 High-quality Aluminium The AluCool® Drawer

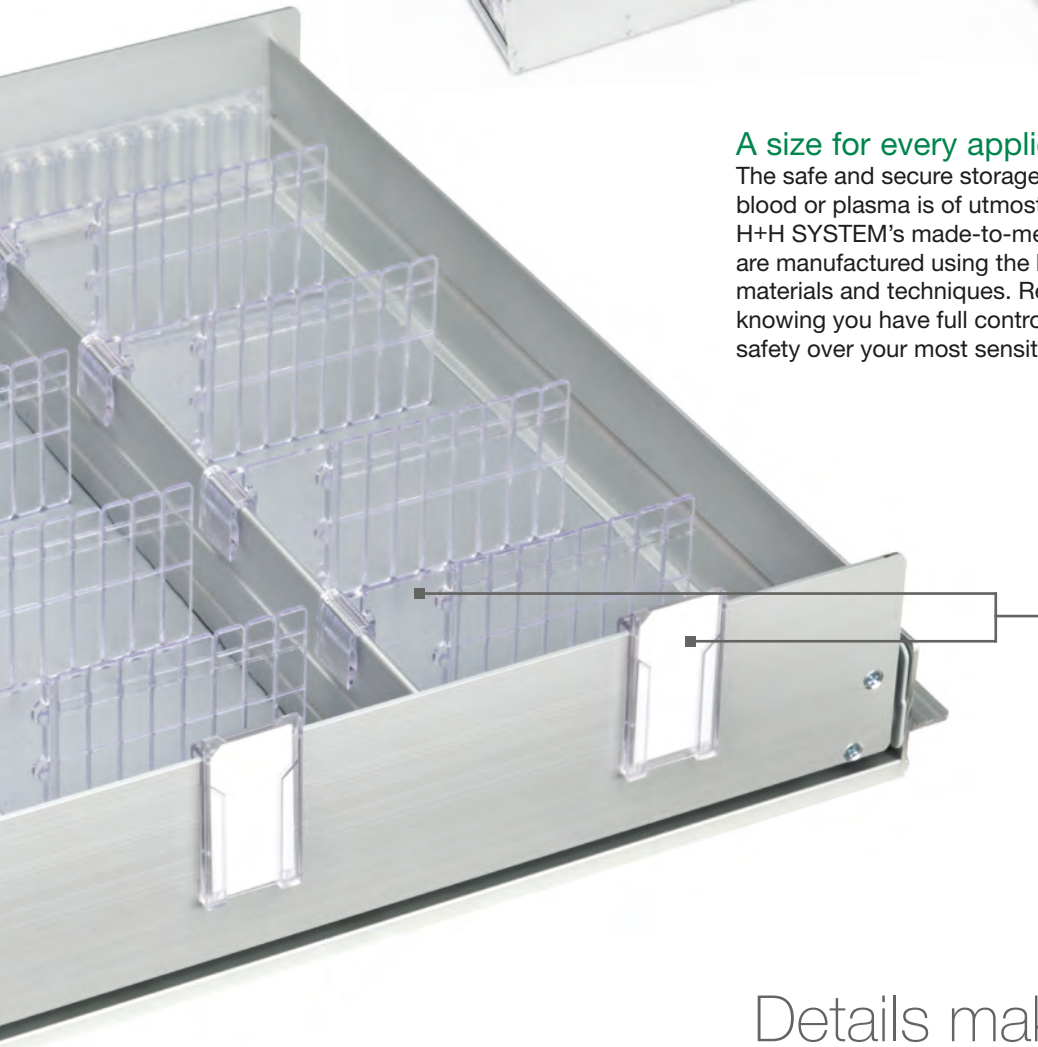

Perfect refrigerator
organisation with unique
benefits.

- | AluCool-Effect: uniform temperature thanks to the high-quality aluminium
- | Long lifetime
- | Easy-to-pull-out plastic rollers
- | Any width, depth and height of drawer possible
- | Any refrigerator can be retrofitted with any number of drawers
- | Tool-free assembly
- | Any divider configuration
- | Subsequent adjustment of the organisation system using dividers and longitudinal rails

Multiple organisation options
for maximum flexibility

A size for every application

The safe and secure storage of medication, blood or plasma is of utmost importance. H+H SYSTEM's made-to-measure drawers are manufactured using the highest-quality materials and techniques. Rest assured knowing you have full control and maximum safety over your most sensitive supplies.

Labelling systems for an even better overview

Our labelling options further improve the overview and increase safety – regardless of whether your labels are handwritten or printed with electronic codes.

A multitude of options for the perfect result

Individual branding of drawers

Whether it's your company name or other wording, thanks to the transparent front, the possibilities are endless.

Labelling with card holders

The card holder can also be attached to the plastic drawers for optimal labelling.

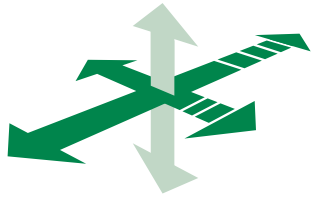

Drawer slides built for professional use

H+H SYSTEM's drawer slides are built to withstand repetitive professional use and will run smoothly and reliably for many years to come.

More intelligent solutions

The Drawer Block

Any width
Any depth
Any height

Whether it's for blood storage, medication or other individual requirements, we manufacture the drawer block to fit every refrigerator brand with any number of drawers, in any size.

Tailor-made for simple installation

Suitable for all refrigerators with any drawer configuration

The frame is designed in such a way that it can be inserted into the refrigerator with a precise fit.

High-quality drawer slides with self-closing function

Uncompromising quality ensures that the individual drawers of the unit slide reliably and perfectly each and every time.

A place for everything
and everything in its place.

More intelligent solutions

Cold room organisation

AluCool®
Effect

For optimal cold room organisation, simply combine our AluCool Drawers with the H+H FlexShelf. The storage racks made of high-quality aluminium can be expanded modularly and can be used as a stationary unit or as a mobile unit on castors.

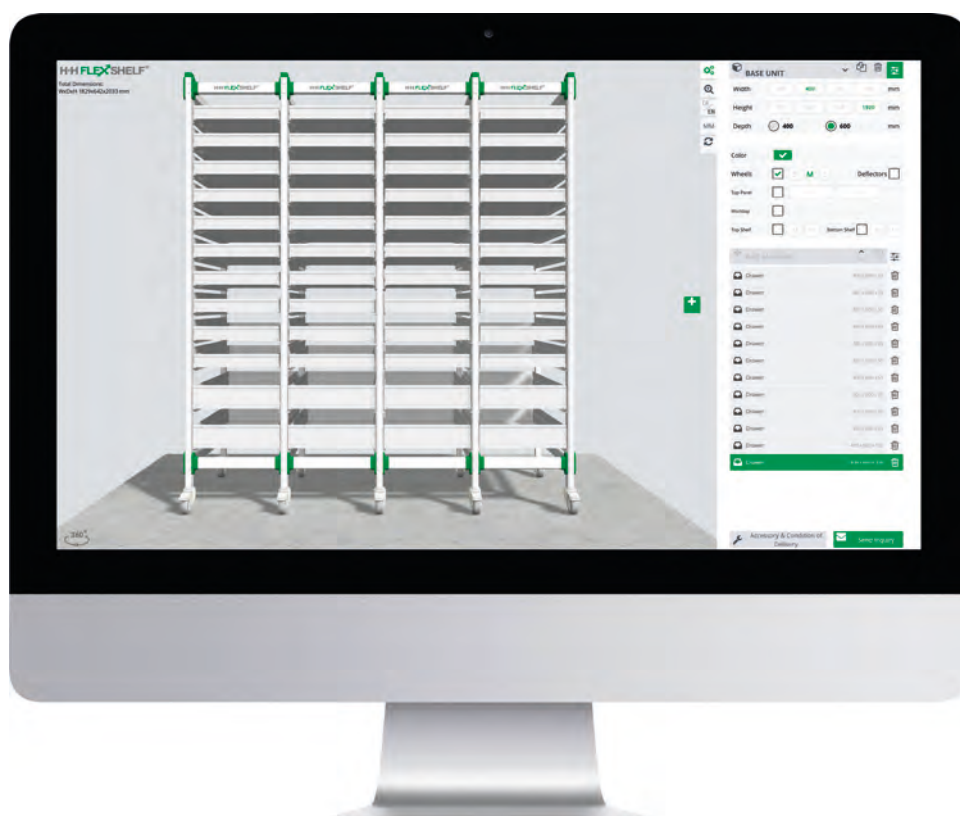

The modular all-rounder

H+H FLEXSHELF®

An individual storage system with endless possibilities.

Configure your perfect storage solution yourself

Scan here for the
online configurator

Complete furnishing for cold rooms

With the modular H+H FlexShelf you save up to 30% space. Aluminium drawers, shelves, plastic modules or work surfaces – each solution meets your specific requirements and can also be easily configured yourself using our online configurator.

Optimal functionality Additional equipment

Tray on shelf

An inexpensive variant. Simply place the tray on the existing grid.

Extendable Shelf

With a closed or perforated base for optimal air circulation.

Lockable Drawers

Sensitive medication can be safely stored with the lockable AluCool Drawer.

Drawer with Handle

The AluCool Drawer with handle - convenient and easy to use.

Plasma and Blood Bank Dividers

Optimal overview and precise storage for blood and plasma bags.

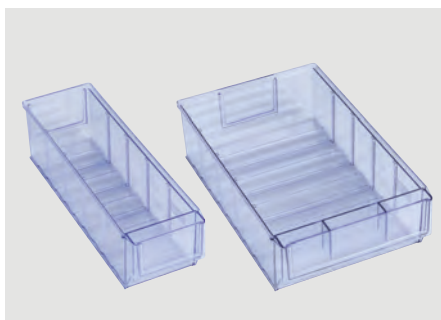

Drawer with Recessed Grip and Thermometer

Everything visible with just one glance. The recessed grip ensures simple operation.

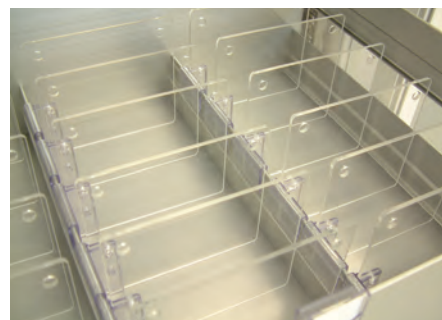

Vial Insert

With our CNC milling machine and our own plastic production, we can implement any special solution exactly fitting your requirements.

Storage Tubs with Handle

In different sizes and divideable with dividers. For placing on the grid.

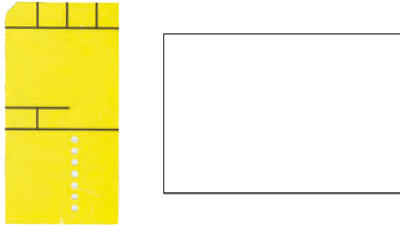

Special Division

If you have special requirements, H+H SYSTEM is the right partner. We develop individual solutions perfectly tailored to your business.

Crucial for a proper overview

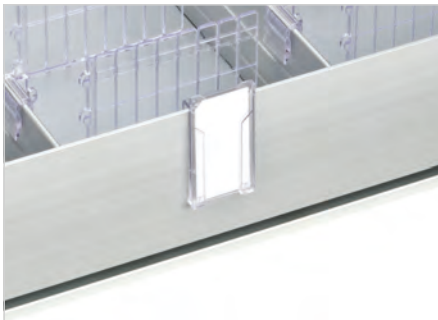

Labelling options

Different card sizes

Cards for all card holders

Practical and safe: With the integrated card holder you ensure maximum security in your drawers. Simply label the cards depending on the product and replace them when changing products. It couldn't be more simple or clear.

Card holders

With card holders located also on the drawer fronts, an optimal overview of the contents is guaranteed.

Various colours

Various possibilities

Pre-cut card labels

The mini cards are pre-cut and delivered on sheets. The five different colors guarantee even safer handling and overview of your products. The mini cards can be handwritten or printed with various electronic codes for quick and easy stock management.
